## Sustainability

- VOC Testing – we make sure that our furniture is safe for both the environment and the users. Ogi desks are tested for the presence of Volatile Organic Compounds using the chamber method in accordance with PN-EN ISO 16000-9.
  - Formaldehyde Testing – to meet the highest standards, we are constantly improving our production methods and the raw materials used. The levels of formaldehyde emission in our desks are now significantly below the requirements in accordance with the PN-EN 717-1:2006.
  - Safety, strength and durability – we believe in creating durable and timeless furniture. All desks in the Ogi family comply with the PN-EN 527-2+A1:2019-08.
  - Sustainable production – we are not indifferent to the environmental impact of our furniture, therefore we provide the essential information on the life cycle of Ogi desks through the Environmental Product Declaration (EPD).
  - Sustainable production – we are not indifferent to the environmental impact of our furniture, therefore we provide the essential information on the life cycle of our products through the Environmental Product Declarations (EPD).
