- Conference & Meeting tables (1)
- High tables (2)

1

2

MFC (melamine) tabletop

- 0,98" with 0,08" ABS edging;
- The corners of desktop are rounded: R 0,08";
- 0,59" gap between the legs and the desktop.

HPL tabletop

- 1,02" MDF covered in HPL with sloping painted edges;
- Slopping painted edges: white or black colour;
- The corners of desktop are rounded: R 0,39";
- 0,59" gap between the legs and the desktop.

Metal beam

- Metal tube;
- With welded metal plates for leg fixing;
- Powder coated metal.

Legs and central leg

- Lacquered and stained natural ash solid wood;
- Glued wood construction;
- With metal inserts for fixing;
- Plastic feet with height levelling (+0,39").

Castors

- Four swivel castors, Ø3,94";
- With wheel brakes;
- Rotate in all directions;
- Max load capacity: 220,46 lb per castor.
- Make sure that before relocating your table with castors, all electrical components are disconnected from the main power source and stacked into a cable tray.

Accessories (optional)

Top and bottom side shelves (1)

- Powder coated metal;
- Different shelves are designed for two heights: 43,31"; 57,32" (from the ground);
- Can be easily removed or placed on different leg without any tools;
- Max load capacity: 22,05 lb per shelf

Planter box (2)

- Powder coated metal;
- Can be easily removed or placed to a different position without any tools;
- Hang only on the top table crossbar;
- Not suitable for direct planting;
- Max load capacity: 22,05 lb per box.

Cable tray (3)

- Dimensions: 18,90x14,45", H=2,67";
- Matches the colour of frame;
- Powder coated metal.

Screen mount (4)

- Powder coated metal;
- Suitable for TV and whiteboard;
- Can be easily removed or placed on different leg without any tools;
- Can be placed only in one height (monitor / whiteboard centre measured from the floor): 55,91";
- Hanging support is made from bent metal sheet – 19,98"x4,57"x2"
- The plate for the monitor is made from a bent metal sheet – 9,1"x9,1"x1,26";
- VESA standard – 2,96"x2,96", 3,94"x3,94", 7,87"x3,94", 7,87"x7,87";
- Recommended screen up to 48"- 49" (maximum screen height 25.2"), weight up to 26,46 lbs;
- Screws for screen fixing to VESA plate are NOT INCLUDED.

Whiteboard (5)

- 0,55" MDF covered in HPL with sloping painted edges;
- Can be easily removed or placed on different sides of legs.

Hook (6)

- Powder coated metal;
- Hang only on the top table crossbar;
- Max load capacity: 6,61 lbs per hook.

Additional information

- Two types of tabletops are available for the NOVA WOOD Multipurpose tables: HPL with sloping painted edges and Melamine with ABS 0,08" straight edges.
- MDF tabletops covered in HPL with sloping raw (painted) edges are especially sensitive to contact with hard surfaces like metal or wood, thus require extra caution when used with hard seating furniture.
- If you want to increase the number of workplaces, you can use max 2 supplementary units in one combination.

- It is possible to hang two shelves and holder on the same table leg and on different sides of legs.

- Table extension is possible only with tables of the same height.

- Easy way to place and remove shelves and holder.

- The height from the center of the VESA plate to the ground is 55,9".

- For more information about electrical components installation, please see cable management guidelines.
