# Brand Profile

YOUR HEALTHCARE FURNITURE SPECIALIST

## Introduction

F

**"Forward"** - Symbolizing innovation and evolution in workplace furniture solution.

W

**"Wellbeing"** - Emphasizing the focus on creating ergonomic and comfortable workspaces.

P

**"Precision"** - Reflecting the attention to detail and craftsmanship in your furniture designs.

## Our Journey So Far..

### 2020-22

We set out to deliver best-in-class workplace furniture solutions across the UAE, backed by over a decade of industry expertise. With a clear vision for GCC expansion, we marked a key milestone by opening our first showroom on Sheikh Zayed Road in 2022.

### 2023-25

We strengthened our presence by building strong collaborations with leading international brands, expanding our team, and enhancing operational efficiency. In 2024, we further accelerated our growth by opening branch offices in Abu Dhabi and Riyadh.

### 2026 & Beyond

We continue to drive design innovation while strengthening our sustainability initiatives and digital capabilities. Our focus remains on delivering an elevated customer experience, expanding into global markets, and maintaining the highest standards of quality and craftsmanship.

## Our Commitment

- 01.** We are committed to healthy and productive work environment. We supply sustainable, recyclable and green products with the help of our manufacturers.
- 02.** We are specialized in innovative workplace design and furniture by bringing a modern touch to your office workspace.
- 03.** Committed to provide workplace furniture that delivers great value by combining modern design, high quality and exceptional service.

## Our Services

Space Planning and Designing

Design Specification Visualization

Project Execution

We transform empty spaces into functional, human-centric environments tailored to your workflow. Our space planning blends precision, creativity, and the right furniture to bring your vision to life.

We translate your thoughts into joyful visuals and spot-on specifications. It's like seeing your dream space wink at you before it's built.

Project execution guided by clarity, craftsmanship, and absolute reliability. A minimal, premium approach that ensures every element falls perfectly into place.

## Our Expertise

### Commercial

We create inspiring and efficient office environments that enhance productivity and reflect modern workplace needs. Clients can choose from an extensive range of desking systems, ergonomic seating, storage solutions, conference tables, and premium furniture sourced from our trusted global partners.

### Healthcare

Our healthcare furniture solutions combine comfort, functionality, and style. We provide medically approved, high-quality products designed to meet the demands of healthcare environments while ensuring elegance and long-lasting performance.

### Hospitality

From reception areas to guest lounges, we offer bespoke furniture solutions that elevate the ambience, comfort, and overall guest experience in hospitality spaces.

### Education

We specialize in designing and supplying comprehensive educational furniture solutions that transform learning spaces into innovative and collaborative environments. Our range offers versatility, durability, and high-quality service for institutions across all levels of education.

# Reception & Waiting Area

Designed for comfort, durability, and hygiene. It typically includes a reception desk, comfortable seating like chairs or sofas, side tables, and magazine racks. The furniture is often made of easy-to-clean materials and arranged to ensure smooth patient flow, accessibility, and a calming environment for patients and visitors.

# Reception Desk

First point of contact for patients and visitors. It is designed to be functional, welcoming, and accessible. Typically made from durable, easy-to-clean materials, it includes space for computers, patient records, and essential supplies. The design ensures privacy for patient interactions and allows for efficient communication between staff and visitors.

# Soft Seating

Provide comfort for patients and visitors. It includes chairs, sofas, and lounge seats with cushioned upholstery. Designed for durability and easy maintenance, the materials are often antimicrobial and stain-resistant. The goal is to create a relaxing and inviting environment while meeting healthcare standards for cleanliness and safety.

# Patient Waiting Area Chair

Designed to provide comfort and durability for patients, visitors, or caregivers in waiting areas. These chairs are typically made with sturdy materials like metal or molded plastic, often featuring cushioned seats and backrests. They are easy to clean, resistant to wear, and arranged in rows or connected units to optimize space and maintain a neat, organized environment.

# Doctor's Desks

High-quality, ergonomically designed workstation tailored for medical professionals. It offers ample workspace, durable materials, and integrated storage for medical files and equipment. Designed for both functionality and aesthetics, our doctor's desks enhance efficiency and professionalism in any healthcare setting.

# Doctor's Chair

Ergonomic, adjustable, and durable <sup>Page | 30</sup> seating solutions designed for medical professionals. Made with health-grade materials, they offer lumbar support, premium upholstery, and smooth mobility, ensuring comfort and efficiency in hospital and clinic settings.

# Boardroom

Designed for high-level meetings, strategic discussions, and decision-making in healthcare facilities. It features a spacious and durable surface, integrated cable management for seamless connectivity, and a professional design that enhances the executive environment. Ideal for fostering collaboration among medical professionals and administrators.

# Boardroom Chair

Ergonomic, adjustable, and durable seating solutions designed for medical professionals. Made with health-grade materials, they offer lumbar support, premium upholstery, and smooth mobility, ensuring comfort and efficiency in hospital and clinic settings.

# Medical Workstations & Office Furniture

A hospital workstation is a functional and ergonomic desk designed for healthcare professionals. It features sterile surfaces, integrated technology, ample storage, and mobility options, ensuring efficiency in patient care, documentation, and medical coordination.

# Armchairs

Designed for comfort and durability in high-traffic areas. Made with health-grade materials, these armchairs offer supportive seating with ergonomic design, ensuring a comfortable experience for patients and visitors. The easy-to-clean upholstery and sturdy construction make them ideal for hospital waiting areas, promoting hygiene and long-lasting use.

# Cafe Chairs

Health-Grade Café Chairs for hospitals are designed to provide comfortable and durable seating in hospital cafeterias or break areas. Made with health-grade materials, these chairs feature ergonomic support, easy-to-clean upholstery, and sturdy construction, ensuring a hygienic and long-lasting solution for high-traffic spaces. They offer both functionality and comfort, making them perfect for hospital dining areas.

# Waiting Area Stools

Designed for comfort and durability in busy waiting areas. Made with health-grade materials, these stools are compact, easy to clean, and provide supportive seating for patients and visitors. Their sturdy construction ensures long-lasting use, while their ergonomic design promotes comfort, making them an ideal solution for high-traffic hospital

# Phone Booth & Acoustics

Health-Grade Phone Booths for hospitals offer a private, quiet space for phone calls or video conferencing within healthcare settings. Constructed with health-grade materials, these booths are soundproof, durable, and easy to clean. They provide a hygienic, comfortable, and secure environment for staff or visitors, ensuring privacy in busy hospital areas while maintaining high standards of cleanliness and safety.

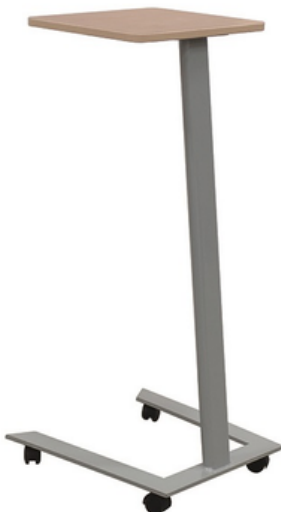

# Hospital Beds

Health-Grade Hospital Beds motorized patient bed designed for medical settings, offering adjustable height, backrest, and leg positions for enhanced comfort and care. It features remote or panel controls for easy operation, ensuring safety, mobility, and support for patients and caregivers.

# Bed Side Cabinet & Over Bed Table

Compact storage unit placed next to a patient's bed. It is used to keep personal belongings, medical supplies, and essentials within easy reach. These cabinets typically feature drawers, shelves, and sometimes a lockable compartment. Made from durable, easy-to-clean materials, they help maintain organization and hygiene in patient care areas.

# Therapy Infusion & Dialysis Chair

Specialized medical chair designed for patient comfort during extended treatments like chemotherapy, dialysis, or IV infusions. It features adjustable reclining positions, padded support, and armrests to enhance patient relaxation and caregiver accessibility.

# Physician Chair

Ergonomic medical chair designed for doctors and healthcare professionals, offering adjustable height, swivel functionality, and lumbar support for comfort during examinations and procedures. It enhances mobility and efficiency in clinical settings.

# Reference

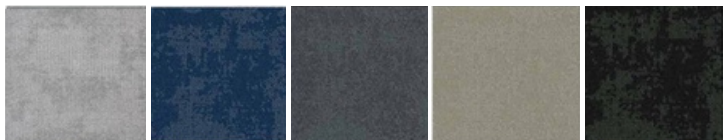

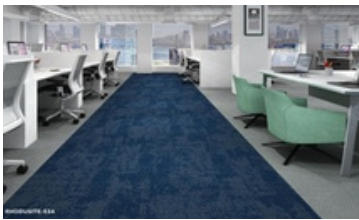

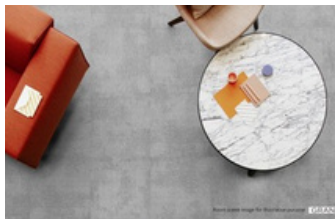

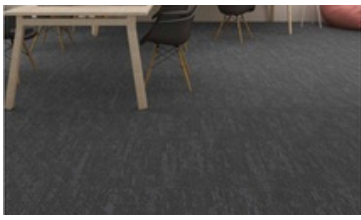

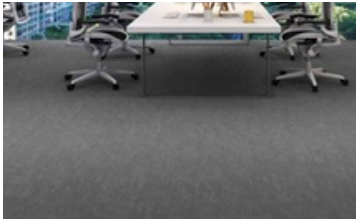

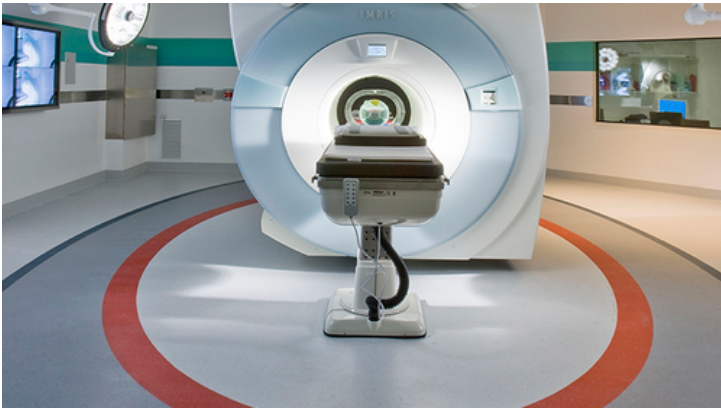

# Flooring Collection

Our healthcare-grade flooring solutions are engineered for durability, hygiene, and safety. Designed to meet the demands of high-traffic hospital environments, the collection features anti-slip surfaces, easy maintenance, and infection-control properties—ensuring both patient comfort and clinical performance.
