Turtle Chair & Lounge Chair.

Design: PearsonLloyd.

Bucket seats have been icons of design for decades. Natural shapes often prove to be a particular challenge for designers in our rational world. PearsonLloyd, the renowned design team from London, has come up with its own expressive interpretation. On the outside, the bucket is a success with its clean sweeping vital lines; inside, a second, comfortably upholstered bucket is perfect for relaxing. Turtle is easy to swivel with a pedestal or four star base, the back buckets are white, black or even have fabric or leather covers. The low-level lounge chair with a generous bucket fits in with upholstered furniture, at home as well as in clubbing and lounging areas. In terms of height and proportions, the dinner chair is all about sitting comfortably at a table.

We would greatly appreciate a courtesy copy.
