PORTFOLIO

ENJOY SEATING PERFORMANCE.

Brothers and Managing Directors Helmut Link (left) and Joachim Link (right) are leading Interstuhl in its third generation.

FROM VILLAGE SMITHY TO SEATING SOLUTION SPECIALIST AND SOLUTIONS PROVIDER FOR NEW WORKING WORLDS

Technical perfection, “Made in Germany” quality, a design for all the senses, a responsible use of resources and full focus on user-centred innovations – Interstuhl has been recognised for more than 60 years for creating solutions that meet the needs of the modern world of work. We are grateful that you appreciate our values and have put your trust in us.

We laid the foundation for this remarkable success story as early as the beginning of 1961, when two gifted blacksmiths started tinkering. With a great deal of passion, expertise and hard work, the bi-regulette was created, the first workplace chair that made work easier for those working in the formerly booming textile industry.

What once began as a joint venture between father and son is now a large family of more than 1000 committed employees worldwide. Thanks to a clear view on the changing world of work (and its resulting challenges) and an innovative spirit for new developments, the company has succeeded in raising

ergonomic quality to a new level and becoming one of the leading manufacturers in Europe. With smart concepts and innovative products, we are now creating work environments that go far beyond office chairs and, just as in the past, put people at the centre of everything we do.

Seating solutions have become room solutions.

At Interstuhl, we take a holistic approach to room design. As a manufacturer with a clear expertise in functional furniture, it is extremely important to us that we not only inspire our customers with our products but also provide them with comprehensive support along the way. We want to help you create an environment in which you feel comfortable and can realise your full potential.

**For more information about our company,
visit [interstuhl.com](https://www.interstuhl.com)**

How will we work
in the future?

Why does the working
environment need to adapt
to new requirements?

And what will that contribute
to the company?

WITH INTERSTUHL SPACE SOLUTIONS, WE CREATE HOLISTIC NEW WORK OFFICE CONCEPTS

The aim is to recognise and understand the challenges and needs of the modern working world, and to offer individual solutions for New Work offices. From planning through to the right product solutions, we provide complete space solutions – tailored to the individual needs of your customers.

WORKSPACE SOLUTIONS BY INTERSTUHL – A COMPREHENSIVE PLANNING, SERVICE AND PRODUCT OFFERING

We develop agile room concepts, covering every step – from situation analysis and goal definition to planning all the way to implementation in your space. Our aim is to create places and working conditions that enable better, more productive interaction.

We design inspiring working environments that cover entire buildings or individual rooms and are perfect for the most varied forms of work, be it independent, focused work or collaborative activities and creative processes.

You can find more information
about our Interstuhl workspace
solutions on our web page or in
our new brochure "New spaces
for New Work".

INDIVIDUAL WORKSPACE SOLUTIONS PRODUCED STEP BY STEP: Working hand in hand with our customers and partners

1 Planning needs understanding

Together, we analyse your current situation and
develop a project goal or project vision:
What does New Work mean for your company?
What requirements and needs are there?
And how can we design your working environment
to meet them?

2 Planning and design

Using the insights from phase 1, we design
a **tailor-made room concept**, taking all conditions
and space requirements into consideration, and
incorporating your **employees'** needs.

3 Execution and support

We implement your customised room concept
from start to finish, covering every job:
**Project management, implementation planning
and installation work.** Then we introduce your
employees to the new space.

On your chairs, get set, go! Welcome to the INTERSTUHL SPRINT express range. With Interstuhl SPRINT, you benefit from tried-and-tested models with extra-fast availability, optimum price-performance ratio, and 10-year guarantee. The maximum order quantity is limited to 40 chairs per customer per week.

interstuhl.com/sprint

INTERSTUHL

Not only delivered quickly, but also found quickly. On pCon, we provide you with all product data regarding our SPRINT range.

DIFFERENT ZONES, ENDLESS POSSIBILITIES

DO WE NEED A PLACE WE CAN ARRIVE AT?

We instantly know whether we like a place or not – often without knowing exactly why. That is why we have looked into which factors make us feel most comfortable in a certain place and designed Welcome spaces to make you feel welcome from the very first moment.

CHECK CK040

CHECK CK142

A haven and a meeting place rolled into one. A place to relax, as well as a place to connect. A place to be alone and a place to collaborate. A piece of furniture that is not one-dimensional and “normal”, but instead has corners and edges, lifting every room to a new level and offering teams the space to nurture ideas either alone or together and create something new as a team.

QOMFORT^{IS1} PERFORMANCE HIGHLIGHTS:

- 1.5, 2.5 and 3-seater sofas for solutions that fit perfectly
- Sofa available with and without rear/side panels
- Soft-seating system for maximum comfort in the office
- Optional soft castors, including locking mechanism
- Matching side table available
- Five selected cover materials in eight different colours
- Utmost Interstuhl quality in a geometric design
- Removable and exchangeable seat and backrest cushions
- Every seat can support up to 150 kg
- Base frame, black-coated

Why should design expectations for the furniture in our office be any different from those for the furniture in our home – or vice versa? This seating provides a place to work AND relax, and refuses to be defined by its location. It creates a connection between the present and the future, because this piece of furniture is ready for virtually anything that comes its way. At home or in the office – or both.

CHECK^{IS3} PERFORMANCE HIGHLIGHTS:

- Changing the sitting position is easy with the lockable rocking mechanism
- CHECK is available with a high-backed or half backrest
- Optional matching ottoman
- Also available with an optional desk attachment that can be folded away to the side and used on both sides without having to be dismantled

HUB HU920

Welcoming people in such a way that they feel at home is an art. And the HUB benches have mastered it like no other. They form inviting seating areas where visitors can take a comfortable seat while waiting for short periods, they offer useful storage areas and are so flexible that they can be combined and extended in brand-new ways time and again.

HUB PERFORMANCE HIGHLIGHTS:

Benches

- Flexibility
- Can be combined and extended in any number of ways
- Comfort
- Bench available as single-seat version with storage space, two-seater version, two-seater version with storage space (in the centre or on one side) or three-seater version
- Design and engineering
- Legs in black or white
- Large selection of fabrics and leathers

Tables

- Table top (MDF), 19 mm
- Leather hand strap
- Two different sizes
- White or black frame
- Three different surfaces

TANGRAM T520/T530

TANGRAM T550

TANGRAM T540

TANGRAM T510

TANGRAM (performance class 5) connects people. Wherever people are waiting, meeting informally or working together. The secret lies in the dynamic addition of elements that all play a distinct role – whether for sitting, connecting or separating – and in minimising to just a few intelligently designed modules, enhanced by a range of accessories that make working easier.

TANGRAM^{IS5} PERFORMANCE HIGHLIGHTS:

- Polished aluminium metal parts
- Left-hand and right-hand seating element
- Upholstered stool
- Optional: Castors
- Cushion
- Table, height-adjustable, white or black surface
- Infinite configuration options

LEMON LM741

LEMON LM746

LEMON LM741

LEMON LM750

LEMON (performance class 5) unites timeless design and flexible dynamics. The club chair can be used in a wide range of environments and is available with a classy aluminium base or an elegant wooden base frame. LEMON can be optionally fitted with a smooth responsive rocking mechanism. Thanks to the integrated seat height adjustment, the club chair can be used with tables of varying heights.

LEMON^{IS5} PERFORMANCE HIGHLIGHTS:

- Various leather and fabric colours to choose from
- Four or five-star base made of aluminium, walnut or oak
- With glides or double castors
- Seat shell with integrated armrests
- Lockable optional rocking mechanism
- Optional height adjustment from sofa height to conventional tables

LIME LI780

LIME LI780

LIME LI780

Hospitality is a question of style. And style is particularly easy to show with LIME (performance class 5). LIME bar stools have traditional style without being traditional at all. This makes it possible to play with a wide range of colours and offers soft upholstery made with perfect craftsmanship. Each detail shows what uncompromising quality means.

LIME^{IS5} PERFORMANCE HIGHLIGHTS:

- Adjustable height
- Large selection of fabrics and leathers
- Characteristic footrest
- Integrated handle in seat for easy transport
- Metal parts available in chrome finish, brilliant silver or black

Design thinking and innovation processes are naturally very dynamic. Ideas are formed, discussed and adapted. Visualising thoughts should not slow down this dynamic; developing the ideas further should not represent a logistical challenge. WHAT IF WE FLY supports these processes with sophisticated solutions that encourage the flow of ideas rather than hinder it. The collection is mobile, intuitive and understated. Each product is designed to support users during collaborative work in a variety of scenarios, from workshops to presentations with a full audience.

PERFORMANCE-HIGHLIGHTS WHAT IF WE FLY:

- Sturdy construction with appealing, functional design
- Intuitive use thanks to user-centric design
- Everything visible at a glance, work surfaces at hip and grasp height
- Has everything you need: Tables, shelves, whiteboards, monitors, seats
- Innovative hook-and-loop system for mobile whiteboard modules
- Modular and scalable to any requirements
- Made in Germany

KINETIC 705K

Everything in life involves movement, and it has done from the very beginning. Because it's good for you and it keeps both body and mind young. Because movement changes and stimulates us, gives us strength, concentration and motivation. Office spaces are first and foremost spaces where movement takes place. That's why we developed KINETIC (performance class 5). For a new, dynamic working environment.

KINETIC^{IS5} PERFORMANCE HIGHLIGHTS:

Bar stools

- › Metal parts made of aluminium, available in black, brilliant silver or white
- › Various upholstery types and materials possible
- › With or without footrest

Standing tables

- › Metal parts made of aluminium, available in black, brilliant silver or white
- › Various surfaces and materials available, HPL or veneer

Design: ID AID, Sven von Boetticher

MONO MO100

MONO MO100

MONO MO150

MONO (performance class 1) enhances any communication area, from relaxation zones to meeting areas. The universal talent brings variety and informality to any environment: Sit down briefly, start a spontaneous conversation – MONO is always there whenever and wherever you need to take a seat. And it offers a level of comfort that was previously unheard of in this chair category.

PERFORMANCE-HIGHLIGHTS MONO^{IS1}:

- Comfortable sitting experience thanks to the basic shell shape and additional flexibility of the backrest (optional cushion)
- Suitable for outdoor areas (resistant against UV radiation and temperature fluctuations)
Recommendation: Protect the material from weathering to improve its durability
- Universal slider and stacking buffer (can be stacked five high)
- Excellent price/performance ratio

DIFFERENT ZONES, ENDLESS POSSIBILITIES

HOW CAN WE REACH NEW HEIGHTS WHILE SITTING DOWN?

New Work may be the latest trend, but there comes a point where we need to work in a traditional workspace. When it comes to areas that are to be used primarily for focussed work, Interstuhl offers a plethora of products that meet the most varied staff requirements, from individual desks to group workstations.

AIRPAD 3C72

AIRPAD 3C42

AIRPAD 3C42

AIRPAD 5C30

AirPad is characterised by lightness. Its elegant, transparent and extremely sturdy high-performance membrane supports the back at the same time as being light and airy. AirPad not only makes a clear design statement, but also ensures an ideal body temperature, avoiding the build-up of heat on your back. The membrane that makes AirPad so characteristic is unique in the office chair sector. The integration of delicate cross bars creates flexible back zones – the AirPads – that despite their light and airy quality always have your back when you are at your desk.

AIRPAD PERFORMANCE HIGHLIGHTS:

- Backrest with high-performance membrane
- Membrane in black or white
- Body-Float synchronous mechanism for unique floating seating experience
- Optional headrest
- Optional design armrests with 4D effect
- Seat depth adjustment
- Seat padding with a wide selection of fabrics
- Optional lumbar support with adjustable height
- Optional base, polished aluminium
- Can be supplied as an office swivel chair and as a visitor chair

EVERY EV212

With half a million chairs sold, the EVERY collection (performance class 1) is our bestseller. The reason for this is simple – its great diversity. And in 2022, this diversity was expanded even more: With a high back in upholstery, Chillback and mesh designs, headrests for the high version, as well as lumbar support with height and depth adjustment for the entire collection.

EVERY^{IS1} PERFORMANCE HIGHLIGHTS:

- Medium and high backrests in mesh, Chillback and fully upholstered designs
- Design armrests with 2D, 3D and 4D effect
- Integrated edge protection
- Optional headrest for the high backs
- Optional comfort seat
- Adjustable seat depth (optional)
- White or black frame
- Large selection of fabrics and mesh colours
- Optional height- and depth-adjustable lumbar support
- Optional base, polished aluminium
- With FLEXTech synchronous mechanism as an option 

Lightness you can see and feel: The EVERY (performance class 1) mesh backrest conveys a particularly dynamic style and ensures excellent air circulation at the back. The mesh also provides exciting colour highlights.

AIM 1S01

AIM 1S03

AIM 1S05

AIM 1S32

AIM 4S50

AIM 1S03

If you sit well, you feel well – if you feel well, you work well. AIM (performance class 1) is dedicated to seating comfort. Its generous, comfortable upholstery is inviting and provides maximum comfort. AIM creates an atmosphere of well-being at your workplace from the moment you sit down.

AIM^{IS1} PERFORMANCE HIGHLIGHTS:

Office swivel chairs

- › Autolift mechanism or synchronous mechanism
- › Upholstery/Chillback/mesh
- › Backrest height adjustment
- › Optional base, polished aluminium
- › 2D/4D armrest
- › With optional FLEXTECH synchronous mechanism  Greatly extends the lateral movement range of the seat.
- › 2D/4D armrest
- › Optional lumbar support with adjustable height
- › Seat tilt
- › Adjustable seat depth (optional)
- › Optional headrest

Visitor chairs

- › Stackable
- › Tubular steel frame
- › Upholstered seat and back
- › Protective cover for stacking
- › Armrest, plastic
- › Four-star base or cantilever model

BUDDY 550B

BUDDY 570B

BUDDY 470B

BUDDY 550B

BUDDY 570B

BUDDY 470B

Bringing people together requires character without being dominating. BUDDY (performance class 3) does this with ease. Perfect harmony in every situation. Clear visual lines with well-thought-out details. Practical and versatile. Full of character with maximum comfort. Lightness, time-less freshness and an intelligent overall concept are what characterise this range of chairs.

BUDDY^{IS3} PERFORMANCE HIGHLIGHTS:

Conference chairs

- Mesh or Chillback backrest, various colours
- Upholstered seat
- Rocking motion, lockable
- Adjustable seat height
- Various upholstery types and materials possible
- White or black back and base
- Optional polished aluminium base

Visitor chairs

- Stackable
- Mesh backrest
- Upholstered seat
- Tubular steel frame
- Various upholstery types and materials possible

TWENTYFOUR TF118

TF117

TF001

The continuous strain of shift operation is a big challenge for both people and furniture. The TWENTYFOUR (performance class 5) was developed specifically to deal with the high loads that come with continuous use. It was developed for long periods of sitting from top (headrest) to bottom (base) and guarantees that you can sit comfortably without tiring at all times.

PERFORMANCE-HIGHLIGHTS TWENTYFOUR^{IS5}:

- Two-zone foam seat for comfort and sitting without tiring
- Optimum hygiene and additional comfort thanks to exchangeable toppers
- 5D multifunctional armrests with adjustable height, width and depth and additional folding function
- Upholstery made from wear-resistant materials
- Robust aluminium base
- Synchronous mechanism
- Recommended for persons up to 150 kg

DIFFERENT ZONES, ENDLESS POSSIBILITIES

WHEN WORKING FROM HOME, DO YOU STILL HAVE TO LOOK FORWARD TO THE END OF THE DAY?

Home is the new office. The more that work and private life are converging, the more important it is to also lay the foundations for healthy and productive work at home – while always keeping to your own personal style, of course. Home sweet home office – there's nothing easier than that.

CHECK CK154

Why should design expectations for the furniture in our office be any different from those for the furniture in our home – or vice versa? This seating provides a place to work AND relax, and refuses to be defined by its location. It creates a connection between the present and the future, because this piece of furniture is ready for virtually anything that comes its way. At home or in the office – or both.

CHECK^{IS3} PERFORMANCE HIGHLIGHTS:

- Changing the sitting position is easy with the lockable rocking mechanism
- CHECK is available with a high-backed or half backrest
- Optional matching ottoman
- Also available with an optional desk attachment that can be folded away to the side and used on both sides without having to be dismantled

HEJ HJ116

HEJ HJ216

HEJ HJ266

HEJ HJ156

Who says your time at work can't be cosy and sometimes even laid back in an office with homely touches? It's no contradiction, but rather the pinnacle of work-life blending – and that's precisely where HEJ comes in. A cosy office chair that brings a sense of connection and versatility to the hygge-inspired office: Connecting work with home, connecting functionality with aesthetics. Ergonomic, functional and stylish. But at the same time, a little edgy and non-conformist.

HEJ^{IS3} PERFORMANCE HIGHLIGHTS:

- Soft, rounded shape
- Upholstered back or mesh back
- Ergonomic S-shape
- Lumbar support can be adjusted in height on the mesh backrest version
- Lumbar support can be adjusted in height and depth on the fully upholstered version
- Comfort seat
- Width, height and depth-adjustable armrests with swivel function
- Autolift or synchronous mechanism with or without  FLEXTECH
- Plastic base with high, low or standard column

UP101

UP101

UP151

A good posture encourages fresh ideas. With UP, both sitting and thinking are dynamic: The intelligent multi-purpose stool moves with its users – whether it's spontaneous chats, workshops, meetings or brainstorming sessions. This keeps the user mobile and the agenda flexible.

ECO UP^{IS1} PERFORMANCE HIGHLIGHTS:

- › Sustainable: Main body made from bio-based plastic and wood flakes
- › Base and seat made from bio-based plastic and cork
- › The dynamic movement of the stool is good for posture, muscle development and back health
- › Available in six colours
- › With matching cushion in SEAQUAL® YARN available in eight colours
- › Integrated carrying grip below the seat
- › Infinitely height-adjustable (from 450 to 630 mm)
- › Stylish strap, made from durable leather and textile, for height adjustment

XXL XL118

XXL XL112

For XXL requirements for support and elegance. An office swivel chair for taller people and plus sizes. Without compromise. Robust yet delicate. Sturdy yet ergonomic. Stable yet stylish. Attributes often considered contradictory are brought together in the XXL office chair. Heavy duty does not have to mean heavy – the chair blends into the design of the work environment, it is outstanding without standing out.

XXL^{IS5} PERFORMANCE HIGHLIGHTS:

- › Robust heavy-duty chair
- › TÜV tested for loads of up to 200 kg
- › All-black design, with fabric or leather
- › Headrest for lower strain on the neck and back during work
- › Lumbar support, adjustable height and depth
- › Choice of two seat sizes to suit individual requirements
- › Meets the varied requirements of larger physiques in an elegant design
- › Ergonomic form and the best quality – Made in Germany
- › Width- and height-adjustable ergonomic 2D armrests
- › Sturdy aluminium base

VINTAGE 17V7

VINTAGE 32V4

VINTAGE 27V4

VINTAGE 17V7

SILVER was created to transfer the design standards of the private sphere into the realm of office work. SILVER's technical complexity is invisible and the chair achieves the "poetic plane of perfect sitting", according to Hadi Teherani, the creator of SILVER. What has emerged is an icon of unique design, technology and perfection. Thanks to home working, SILVER is now finding its way back to the private sphere. Here, it arouses a free spirit – and all the senses.

SILVER PERFORMANCE HIGHLIGHTS:

Office swivel chairs, swivel armchairs, visitor chairs and conference chairs

- Highest quality leather
- Brushed aluminium parts
- Seat height adjustment
- Weight adjustment of approx. 50-120 kg
- Swivel armchair and chairs with synchronous mechanism

Tables and sideboards

- Brushed aluminium parts
- Design and engineering
- Highest quality materials

If you appreciate elegance, you will simply love VINTAGE (performance class 5). When your home becomes your office, this chair makes a statement. VINTAGE embodies true prestige and high-level aesthetics. With it, your home office becomes a boardroom. Perfect craftsmanship, the best materials, technical innovations and maximum comfort are combined in VINTAGE to give you a constant feeling of delight.

VINTAGE^{IS5} PERFORMANCE HIGHLIGHTS:

- Appealing upholstery with channel quilting
- Smart Motion Technology, lockable
- With the upholstered version, the height and depth of the lumbar support are adjustable
- Weight adjustment, multi-setting
- Dynamic seat tilt adjustment
- Design loop armrests/3D armrests

FLEXTECH

URNS GREAT SITTING SOLUTIONS INTO ACTIVE SITTING SOLUTIONS

With FLEXTECH, we are expanding our proven range of products and turning good sitting solutions into "Active Sitting Solutions". The outstanding ergonomic properties of the particular chair are expanded by additional dimensions thanks to FLEXTECH.

Numerous studies (e.g. from Fraunhofer IAO or the Faculty of Sports Medicine at the University of Tübingen) demonstrate the importance of movement in effectively counteracting the risks associated with long periods of sitting.

In comparison with a standard synchronous mechanism, FLEXTECH offers:

- Up to four times greater range of lateral motion
- Three times greater range of forward motion
- Up to 100% more micro-movements when reclining

Possible for AIM, EVERY, GOAL and JOYCE

Improves blood circulation

Prevents cardiovascular problems

Counteracts muscular fatigue

Prevents fatigue

Strengthens the spinal muscles

Prevents lipid metabolic disorders

PURE^{IS3}

INTUITIVE INNOVATION

The research – studies conducted by the Fraunhofer IAO and the University of Tübingen in particular – suggests that just two hours of moderate physical activity per day are enough to offset the negative effects of a sedentary lifestyle. For many years, Interstuhl has collaborated with the Fraunhofer IAO to turn scientific findings into practical solutions.

Three factors with health benefits:

Activation – PURE ensures that sitting is never static. Frequent posture changes keep muscles active, and legs, hips and spine are mobilised too.

Freedom – PURE guarantees that the user is never forced into an uncomfortable posture. This prevents blockages in the blood flow and encourages circulation.

Comfort – PURE guarantees constant and firm support in all movements. And because the ergonomics of a chair can only work properly if it is correctly adjusted, PURE performs this task completely automatically.

PURE is the professional solution for ergonomic sitting, especially in agile work environments. The intuitive mechanics enable quick individual adjustments in just a few steps, making it a trump card in every touchdown workplace.
